Improvement

PROJECT DESCRIPTION

Project: Rosenblatt Stadium
Renovation
Omaha, NE

Owner: City of Omaha, Nebraska

Contractor: Hawkins Construction

Scope: Structural
Miscellaneous

Size: 117 ton

PROJECT DETAILS

Rosenblatt Stadium is the home of the College World Series and it was a privilege to be involved with the renovation of such a historic and important project in our national culture.

This project required that we furnish an artistic barrier used to help control foot traffic entering and exiting the ball park. Each barrier is made using four tube steel posts and is capped with a 24" diameter sphere. All components required a commercial blast clean and had a zinc-rich primer applied.
